How To Join The Uplust Affiliate Program

Interested in becoming a Uplust affiliate and earn some sexy, recurring lifetime commissions? Here's how to become a Uplust affiliate:

Step 1: Explore Uplust

It always helps to have an above-average understanding of the platform you are promoting ;) If you are new to Uplust, we advise to create your own profile and start posting some content. We suggest you spend some time looking into the website, how it works, how Lusts work, etc...

If you have been contacted by our team (affiliate@uplust.com) to be part of our “Affiliate Program”, we would be glad to offer you a VIP account so you can be featured on the website and earn more followers.

Step 2: Visit The Uplust Affiliation Website

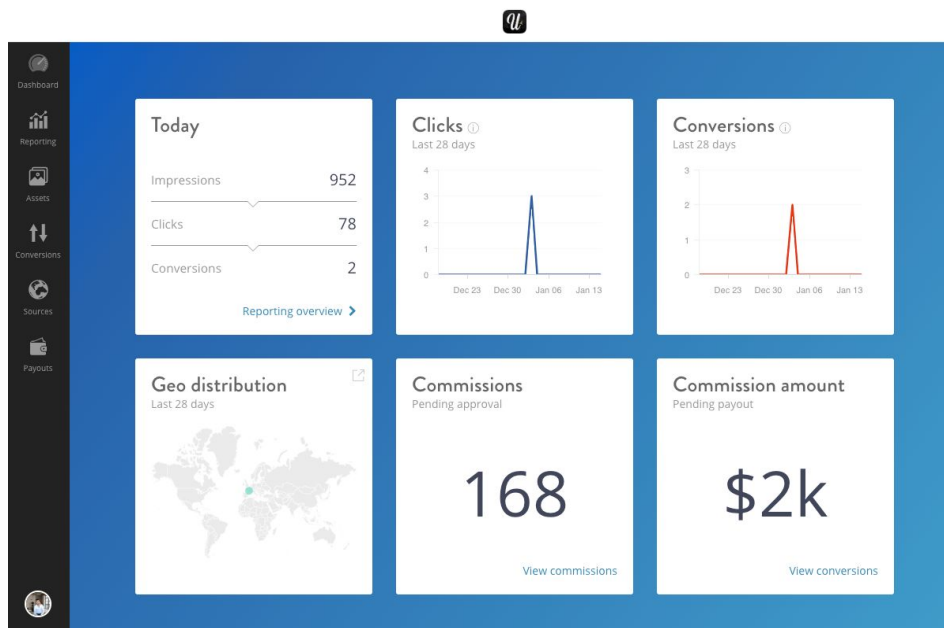

Go here (<https://uplust.tapaffiliate.com>) and sign up for an account as an affiliate by filling your first name, last name, email and password. These information remain strictly confidential. Your application will be reviewed by Uplust team within 24 hours.

The image shows a sign-up form titled "Become our affiliate. Sign up here!". The form contains four input fields: "First name *", "Last name *", "Email *", and "Password *". Below these fields is a checkbox labeled "I agree to the [terms of service](#)*". A dark button labeled "Sign up now" is located at the bottom right of the form.

Step 3: Access The Affiliate Program

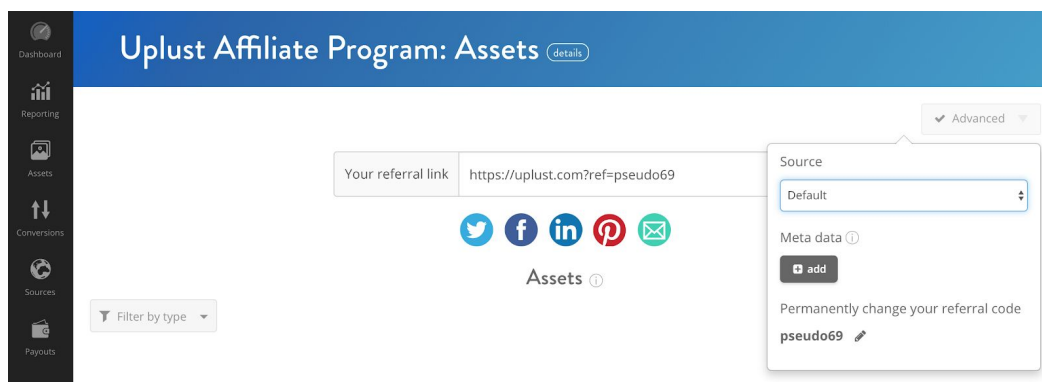

Once your application has been confirmed, you will get access to the affiliate program dashboard with all assets and metrics about your commissions.

Step 4: Grab Your Links (& Start Promoting)

Go to 'Assets' and get your **Referral Link** to start promoting the platform. This link looks like this: <https://uplust.com/?ref=ReferralCode>.

The **Referral Code** is the code that identifies you as an affiliate. It must be unique. For privacy concerns, you might want to edit your default Referral Code to replace your first and last names by your Uplust username. It is really easy, follow these steps:

Go to 'Assets' > Click on 'Advanced' > Click on the 'Edit' icon. A field will open - here you can input your new Referral Code. Please note that when you change your Referral Code, the previously shared Referral Codes will no longer work.

Now you can share your Referral Link to the world! You will earn a commission every time a new paying member has been using your link to discover Uplust and upgrade his account within **45 days**.

Pro Tip: if you want to promote your own Uplust page instead of the Uplust homepage, add “**?ref=ReferralCode**” to your profile URL. For instance, the user Love_forever would share the link: https://uplust.com/love_forever?ref=referralcode

How To Promote The Uplust Affiliate Program?

If you are an active member on Uplust, the best way to drive traffic through your affiliate link is to share your Referral Link where your fans are. By subscribing to Uplust, they will look for especially three things:

- 1) Discover all the great, and ideally exclusive, photos and videos you post on your Uplust page (since that free users can only see your 5 last posts) ;
- 2) Enjoy social media platform features without fearing for their NSFW content to be banned, and interact with thousands of other members ;
- 3) Get 100 Lusts for free to enjoy the platform.

Now, it really depends on your online activity, but here is a list of platforms where you can promote your link:

Twitter

Using affiliate links on Twitter involves a bit of wordplay. Since you only have 280 characters to convince someone to click on your affiliate link, you need to be creative. Experiment with different styles of copywriting and see which method drives the most affiliate link clicks. You can also pair your social media copy and links with an image or video to create more intriguing content for your target audience.

Your Website/Blog

It is very common for business owners to promote their social media accounts on their website so they can engage their followers with daily content. So don't hesitate to paste your affiliate link into your blog content or website.

Live Cam / Adult Chat

If you have your own room on a Adult Live Cam website (Chaturbate, LiveJasmin, etc), well, it is the perfect place where to communicate your Uplust username to your audience and share your affiliate link so they can get exclusive content, even when you are not online.

Youtube

Videos are a powerful marketing tool, especially for affiliates. As an affiliate, you have the ability to create video content around a variety of NSFW topics and include your affiliate links in the process. There are two main ways to embed affiliate links into your video content.

- First, the easiest way to use YouTube affiliate links is by including them in your video description. If you use this tactic, be sure to verbally and visually call out the description in your video. Most YouTubers use phrases such as "Click on the link in the description below to chat with me OR see all my exclusive photos and videos" to direct viewers to the right place.

- The second tactic is to use YouTube annotations. These are the transparent boxes that pop up at preselected times and places within a YouTube video, often with a call-to-action. Each box is hyperlinked, offering the perfect placement for your affiliate links.

For the best results, use both YouTube affiliate link tactics to your advantage. Please note that these tactics are also great for other video sharing platforms, even if they are NSFW (Pornhub, Youporn...).

Instagram

Much like promoting affiliate links on Facebook, you can also generate affiliate traffic from your Instagram posts. However, Instagram has one major exception: Instagram posts are not clickable. Instead, you must drive fans to your bio to click on a link. A workaround to this problem is to include links in Instagram Stories. Once you gain more than 10k followers, you can add links to your Instagram Stories content.

If selling on Instagram is a priority, make it a point to first build a loyal audience. These loyal followers will be more likely to click on your affiliate links, whether in the bio, Instagram Stories or Direct Messages, and engage with your content.
